

Sams<sup>o</sup>nite

**CATALOGUE 2023/2**

# GENERAL INFO

## Measurements

The dimensions shown in the tables are the exterior dimensions (including handles, wheels, bottom glides, side pockets and other external parts).

Measurements of volume, dimensions and weight are carried out in the Samsonite laboratories using procedures whereby tolerances up to 1.5 cm in dimensions and 5 % in weight and volume cannot be excluded.

Samsonite reserves the right to amend the specifications, colours, dimensions and weight of any product without prior warning. Colour deviation may occur due to the printing technique used.

## Quality

We deliver the quality. You conduct the test. Every journey. Every day. You might not have given it any thought, but each Samsonite product undergoes the most stringent controls and tests before it goes on the market. Of course, the ultimate test is conducted by you, the customer.

# HISTORY

1910

## The Wooden Trunk

Jesse Shwayder, the company's original founder, redesigns the basic wooden trunk with shiny metal studs and corner-pieces making it more eye-catching and "strong enough to stand on."

1941

## Streamlite™

In an early use of a new cutting-edge technology, the Streamlite suitcase is clad in a lightweight lithographed paper to create a "rawhide" effect. Its tapered shape is destined to become a classic within the industry.

1958

## Silhouette™

The most advanced luggage made up to that time, included a new modern shape with recessed hardware to protect it from the wear and tear of travel.

1962

## Classic Attaché

The first ABS Attaché case is created for a new generation of business men. This sleek case soon became emblematic for the early-60s Mad Men-style executive.

1998

## Xylem™

Introduction of the first Samsonite suitcase in aluminum. Its matching attaché would go on to play a key supporting role in the James Bond movie "The World Is Not Enough," where it was used to tote bundles of cash around Europe.

2004

## Spinner®

Samsonite markets the four-wheel Spinner, which could be steered in any direction and toted right alongside the traveller. This innovation radically improved mobility and convenience for travellers as they navigated their way through modern airports.

2008

## Cosmolite®

Samsonite launches Cosmolite as an answer to the market's increasing demand for stronger and lighter suitcases. It was the lightest and strongest Samsonite case yet developed. Its sea shell inspired design became an instant success and the collection went on to win many design awards, including Red Dot Award "Best of the Best."

2015

## Neopulse™

With the launch of Neopulse, Samsonite further strengthens its production capacity in Europe. The Made in Europe label, in combination with a strong design and competitive weight advantage are what made this collection an instant commercial success.

2022

## Ecodiver™

The ultimate casual collection, Ecodiver combines practicality, security, comfort and with a top-notch design. Made with recycled materials, Ecodiver perfectly matches our 'Responsible Journey' strategy. The water-resistant coating makes it the perfect choice for all your outdoor adventures and endless strolling in the city.

2023

## Essens™

Made in Belgium, Essens embodies a more sustainable approach from start to finish: made with recycled materials, using green electricity for shell production and final product assembly, self-repairable,... Travel carefree thanks to the innovative 3-point locking system and unique 3 in 1 packing system.

**1969****Saturn™**

As a response to the rising demand of lightweight luggage, Samsonite launches its first Polypropylene suitcase with injection-moulded shells. The Saturn collection was the niftiest iteration of lightness and strength yet.

**1974****Silhouette Blue**

The introduction of wheels to the Silhouette frame transformed the luggage world for ever. The case was a true revolution in travel comfort and convenience, targeting a new generation of frequent flyers.

**1986****Oyster™**

Oyster was the first suitcase with a three-point locking system, providing ultimate strength and security. The case was an immediate triumph, with 140.000 bought in its first year, it was the fastest-selling case of all time.

**1994****Ziplite™**

With Ziplite, Samsonite introduced its first Polypropylene suitcase with a zipper closure, thus combining both the benefits of hardside and softside luggage. Sales took off quickly and the market for hardside suitcases with zippers was born.

**2018****Eco Collection**

Worldwide, Samsonite launches 23 product lines that are made from recycled Polypropylene or Recyclex™, a fabric made from 100% post-consumer recycled PET plastic bottles.

**2019****S'Cure Eco post consumer-waste™**

S'Cure Eco is the first suitcase on the planet repurposing post-consumer recycled plastic waste. The suitcase's shells are made using recycled Polypropylene from post-consumer household waste, turning a material too valuable to be thrown away into a high-quality functional product.

**2020****Proxis™**

The first collection made from Roxkin™, an exclusive multi-layered material developed by Samsonite, offering remarkable strength, resilience and lightness. Proxis is made in Europe, has fully recyclable shells and comes with Samsonite wecare, a unique service plan.

**2021****Magnum Eco™**

Meet Magnum ECO, an innovative commitment to sustainability for travellers seeking an awesome, secure and stunning travel partner. The collection is crafted with recycled post-consumer waste and made in Europe without compromising on comfort or features.

The Respark collection is our sustainable and durable travel solution, designed with a high focus on volume and practicality.

- All-in offer of trusted duffles, bags, cabins and check-in spinners. Now even more complete with the arrival of two duffle on wheels, as answer to the demands of the casualisation trend
- High packing capacity and expandability on multiple models
- Practical and secure: corner protection, extra high wheel housings, PU back protection and kickplate
- Double suspension wheels on spinner models
- The exterior fabric and interior lining are made with resp. 100% and 97% post-consumer recycled PET. The coating and backing are made with virgin materials

Meet Litebeam, our lightest collection to date. Its modern design, lightweight yet durable construction and practical features will change your travel mindset. Allowing you to move around easily, enjoying every step of the way.

- Our lightest softside to date: only 1.8 kg for the Spinner 55
- Broad cabin offer, including Underseater, Spinner and Upright
- High-volume capacity and expandability on check-in sizes
- All pockets are lockable and an integrated TSA008 lock with kissing sliding pullers
- Practical packing thanks to packing straps, pockets and details colour matching with the exterior
- The interior lining and interior zipper tape are made with 97% post-consumer recycled PET. The coating and backing are made with virgin materials

Our SLG line has been updated and its exterior look is now more minimalistic and modern. The distinctive colour detail is now more subtle and still matches the coloured lining on the inside of the wallet.

- RFID protection
- Coloured detail on the outside and dedicated colored fabric lining
- The interior lining is made with 100% post-consumer recycled PET. The coating and backing is made with virgin materials
